

BIG REAL ESTATE DEAL JUST CLOSED

W. H. Abernathy Paid \$75,000 for Herndon Property in Ada.

One of the biggest deals ever consummated in the city of Ada, with city property only involved, was completed yesterday, when W. H. Abernathy closed a ten day option contract by paying \$75,000 to R. A. Herndon for several pieces of residential and business property.

The payment of that large amount makes Mr. Abernathy the owner of the Arcade hotel property, comprising three splendid business rooms on the ground facing Twelfth street with the Arcade rooms overhead; lots 9, 10, 11 and 12 of block 115 including the present home of Mr. Herndon at 126 West Fifteenth and three other dwelling houses facing Fifteenth street; five dwelling houses located on the court house site, on the south half of block 105, facing Thirteenth street; the property now occupied by a produce company, just north of the Frisco track and west of Broadway, and 140 feet of property 160 feet deep, lying just north of the industrial track, opposite the compress, on which six negro shacks are located. If, indeed, the "proof of the pudding is in the eating thereof," Mr. Abernathy has demonstrated anew by this large investment that his faith in Ada and the Ada oil field is supreme. As a member of the Carfance-Laselle syndicate he with others, spent thousands of dollars in drilling the well in 32-5-5, after a dry hole had been drilled in 16-5-4, both located in the rank of wild cat territory.

He said to a representative of the News today that he expects to make his home at the residence at 126 West Fifteenth, at present the home of Mr. Herndon, from whom the property was bought. One of the business rooms facing Twelfth street under the Arcade hotel, will be occupied by his son, Overton, who will come to Ada from Fort Worth, Texas, next week and establish an automobile sales agency.

The other property acquired from Mr. Herndon will be held as an investment pending the growth of the city, which the new owner is certain will occur. All of the property is now occupied and the annual rents will return a handsome dividend on the investment, if Mr. Abernathy should decide to retain it all.

Possession of all of the property is to be obtained at an early date, except the Arcade hotel, which is held by the present occupant on a lease which expires January 1, next year.

GROCERS HEARING RAILROAD'S PLIGHT DESCRIBED TO DAY

(By the Associated Press)
CINCINNATI, OHIO, May 11.—The financial plight of the railroads, and its reaction upon the shipper, were described today to the convention of the Southern Wholesale Grocers association by B. M. McKee, of St. Louis, a vice president of the Pennsylvania railroad in 1920. He said out of every dollar the railroads received only one cent remained after paying operating expenses and in 1917, 23-3 cents remained out of each dollar to pay interest on money invested.

MYSTERY IN THE DEVERAUX CASE

Well Known Jurist Thought to Have Been Poisoned at Tulsa.

(By the Associated Press)
TULSA, May 11.—While Judge John Deveraux, former state supreme court justice and well known figure in Oklahoma legal circles, lies at the point of death at his home today from a drug induced sickness and a deep gash over his right eye, the police turned to a search for a ten thousand dollar promissory note which they claim is missing from the Judge's safety deposit vault in a downtown bank. Mrs. James, the former bride of Jesse James, a wealthy Osage Indian, two weeks the Judge's nurse, and Goldie Gordon, accused confederate of the James woman, today admitted taking the note from the bank, according to the police. They are held by the police and the county officials until a full investigation can be made of the Judge's illness.

So far as the facts are known at present Judge Deveraux was found lying in a dazed condition in a room at a hotel late Monday night with Mrs. James and Goldie Gordon present in the room and claiming to be his nurses. A deep cut over his right eye had been poorly dressed and the Judge appeared to be under the influence of a drug. His landlady called an ambulance and had him removed to his apartments over the protest of the two women.

POLISH INSURGENTS CEASE HOSTILITIES

(By the Associated Press)
LONDON, May 11.—It is reported that negotiations between the inter-allied commission in Upper Silesia and the leader of the Polish insurgents in that area resulted last evening in the suspension of hostilities, says a dispatch to the Central News from Warsaw today.

It was agreed, according to this report, that the insurgents would occupy a line of demarcation agreed upon and remain in the stipulated position pending final settlement of the Upper Silesian question, which is still pending in the allied council, where it rested following the taking of the recent plebiscite. The industrial territory, which has been largely overrun by the Poles, therefore, would remain under Polish occupancy.

FIVE MEN GO TO ELECTRIC CHAIR

Three Negroes and Two Whites Wait Final Decision of Court.

(By the Associated Press)
MCALISTER, May 11.—Three negroes and two white men are occupying death cells in the state penitentiary here awaiting the electric chair on decision of stays of execution that have been granted them, pending examination of merits of their appeals.

Charlie Walker, negro, was to have been electrocuted April 18, for the stabbing to death of Doc Harkins, an aged white prisoner, in a jail at Pittsburg county. A defense fund was raised, according to prison officials, which was applied in securing a stay of execution until passed upon by higher courts.

William H. Tait and C. W. Gobin, white men, recent arrivals under sentence of death from the district court of Comanche county, for the alleged murder of Russell Sprague, a taxi-cab driver near Lawton, are condemned to the electric chair. Tait is to die June 14 while Gobin's date of execution has not been set because he has appealed his case. Evidence and testimony of the two men is now in the hands of Governor Robertson for inspection. It has been said in executive circles here has arisen some controversy over the judgment of the sentence to death of Gobin.

These two men occupy the cells recently vacated by Ledbetter and Blakely, who paid the death penalty.

Levy Young, negro boy, who is sentenced from Mangum, occupies the cell adjoining that of Walker. Young was convicted of the murder of his employer over an alleged short weighing of cotton which Young picked for him.

Eli Thomas, also a negro, occupies Young's cell. Thomas is under sentence of death for the murder of a white man at Calhoun, during a picnic.

All three of the negroes have stays of execution.

"I'LL TELL THE WORLD I WON'T CONSIDER DISARMAMENT!"

GASSER REPORTED NEAR CITY OF ROFF

First Reports Place Production Five Million Cubic Feet.

The city of Roff is said to be the storm center of wildcat excitement today, following reports of a giant gasser which is said to have been discovered at a depth of 350 feet, yesterday, on the L. E. Bolen farm in 17-2-4, four miles west of the north edge of the city of Roff.

Unofficial reports received here today estimate the volume of gas at five million cubic feet. The well is being drilled on acreage owned by a number of Roff business men, and the first reports of the strike at the shallow depth has caused quite a panic.

Sheriff Duncan, the only Ada citizen known to have visited the well, said to a representative of the News today that the escape of the gas could be plainly heard at a distance of a thousand yards from the well. He also reports that a large man was placed on top of the casing yesterday and the force of the gas lifted him up bodily.

Several small producing oil wells have been found in the vicinity of the new gasser and it is said that a pocket of gas was struck short of 100 feet, in a hole being drilled for a water well, a mile south of the gasser two years ago. The freak gasser blew in and, catching fire, burned for over a year, until caving stopped the gas pressure.

Several scouts have gone to the new well to investigate the reports and it is likely that a detailed report may be printed in tomorrow's edition of the News.

Hospital Meeting.

Those interested in the hospital proposition for Ada are urged to be at the Harris hotel at 8 o'clock Thursday evening for the purpose of hearing the plans discussed and mapping out some plan of procedure.

COMMITTEE.

PAVING MEETING

South Broadway residents are a hundred percent strong for paving, and their petition is up and ready for submission to the city commissioners, but it is necessary for the people involved to meet and decide what kind of paving is wanted. A meeting of the residents along South Broadway to Seventeenth street, therefore, is called for 8 o'clock Thursday evening at the lobby of the Ada Evening News to discuss the paving matters and decide what is wanted. All are urged to be present.—The committee. 5-11-21d

Last Minute Telegraph

Germany's Acceptance Delivered.

(By the Associated Press)
LONDON, May 11.—Germany's unconditional acceptance of the entente reparations was delivered to Premier Lloyd George by Dr. Sthamer, German minister to Great Britain, here today.

Mysterious Ardmore Murder

(By the Associated Press)
ARDMORE, May 11.—Price Hays, of Stillwater was shot and seriously wounded about four o'clock this morning in a local hotel by an unknown assailant. A Goodholm, who registered with Hays last night and who has an adjoining room, is being held for investigation.

Nation's Trade Falls Off

(By the Associated Press)
WASHINGTON, May 11.—The nation's foreign trade continued to fall off in April figures made public today by the department of commerce show. Exports were \$253,000,000 compared with \$387,000,000 the month before and \$648,000,000 in April, 1920. Imports last month increased three million dollars over the \$252,000,000 total the month before, but were \$241,000,000 below the April, 1920 mark.

A MAD RUSH AT A DALLAS BANK

Report That Bank's Finances Were Bad Causes Near Panic.

(By the Associated Press)

DALLAS, Tex., May 11.—Hundreds of persons jammed inside the Security National Bank here and thronged the streets about the building today when rumor spread that the bank's finances were in danger, but the crowd began to disperse after the Dallas Clearing House association and the Eleventh District Reserve Bank issued statements of confidence in the solvency of the Security and pledged their assistance.

Dallas business men mounted boxes in front of the bank building and helped stem the rush by optimistic speeches. The bank itself offered to pay in cash all depositors who demanded money.

Just before noon when the crowd was thickest, a federal reserve trust guarded by uniformed men, drove up to the Security and a great sack of currency was dragged inside the bank and opened exposing many thousands of dollars.

Shortly after noon much of the crowd about the bank had been dispersed and police orders were issued to those who remained to get in line if they wanted their money.

WHITEWASH HINTED IN BERGDOLL CASE

Johnson of Kentucky Makes Such Charge Against Col. Hunt.

(By the Associated Press)

WASHINGTON, May 11.—Reiterated charges that Colonel John E. Hunt, commanding the disciplinary barracks at Governor's Island, was "white washed" by a court martial in connection with the escape of Grover Cleveland Bergdoll, draft dodger, were made by representative Johnson, democrat of Kentucky, today when the house investigation committee resumed its inquiries.

Mr. Johnson asserted he would show that the trial of Colonel Hunt for alleged failure to take adequate precaution in releasing the prisoner under guard, was a straight out "white wash," participated in by the prosecuting officer, the court itself and other witnesses.

"I propose to prove this by the report," Mr. Johnson added, "after the record of the court martial was admitted to the committee's testimony with the approval of Colonel Hunt, who was again on the stand."

"The judge advocate (of the court) was no friend of mine," Colonel Hunt said, "and he prosecuted the case vigorously. He was intensely interested in the Bergdoll case, but his views were at variance with mine on the military aspect."

"This particular judge advocate is to be commended most highly in so far as the matter related to Bergdoll," Mr. Johnson replied, "but it was to be deplored that he took a different attitude with respect to your prosecution."

There was a sharp cross fire on the point that Hunt had been promoted while charges against him were pending, but the witness insisted he was promoted by the usual operation of military law.

SIX-YEAR-OLD BOY RUNS AWAY FROM HOME 45 TIMES

NEW YORK, May 11.—Six-year-old Michael Clementi the hop-a-wagon, steal-a-ride and runaway champion was back home today after having been rescued from his forty-fifth spasm of wanderlust.

In ten months Mike has disappeared from home at least once a week, his father told police. Sunday afternoon Mike was absent at meal time and Papa Clementi notified police headquarters.

Mike turned up yesterday morning in the Coney Island police station. He was claimed by his father and mother, taken home, then started to school. He hopped a wagon, rode to a subway station, eluded the ticket agent, rode to Manhattan, climbed atop a Fifth avenue bus and hid himself under a seat.

A policeman hauled Mike from the bus and the closing episodes were a police station and a woodshed.

Mike answered roll call at school today.

AN ECONOMIC REVIVAL DUE

Better Times Seen as Result of Germany's Decision to Pay.

WASHINGTON, May 11.—Administration officials expressed satisfaction today over the decision of the German government to accept the reparations terms.

It is known that an invasion of the Ruhr valley by the allied forces would have been regarded by the United States with deep concern, although the allies had been given assurance that this country would stand with them.

American government economists appeared to be convinced of Germany's ability to meet the obligations and they professed to see in her decision promise of an economic revival that would cause a happy reaction throughout the world.

With the highly controversial question presented by the allies, insisting upon Germany's agreement to pay the fixed indemnities out of the way, it was indicated that the state department expected to proceed more rapidly with consideration of numerous problems connected with the development of its foreign policy. Department officials would not indicate the order in which the questions would be taken up, but it was made clear that the policy would be developed along the general lines of insistence upon equal opportunity and the recognition of American rights throughout the world.

ALLIED HEADS MEET TO COMPLETE PLANS

(By the Associated Press)

PARIS, May 11.—Premier Briand, the ministers of war, finance, marine, public works and liberated regions, Marshall and General Weygand met with Premier Millerand this morning to discuss measures necessary for the execution of demands prescribed in the allied ultimatum to Germany.

The clauses prescribing the act to be performed by Germany with her acceptance of the ultimatum relative to disarmament of the military, naval and arial branches of her service were discussed. The application of the financial measure laid down by the allies in their ultimatum was likewise examined but the decisions reached were not announced.

DANIELS BOUND OVER FOR TRIAL

Must Face Jury In District Court for Shooting Emmet Caudle.

Rarius Daniels was bound over for trial in the district court on a charge of assault with intent to kill, in Justice H. J. Brown's court today. Emmet Caudle, who was shot five times by Daniels at the Daniels home on West Fourteenth, April 23, was the main witness for the state.

According to Caudle, he went to the Daniels home the afternoon of the shooting, at Daniels' invitation. He said he met Daniels on the street in this city that morning, between nine and ten o'clock, drank some whiskey with him, ate dinner with him at noon, and shortly after noon started with him to the Daniels home, after being told by Daniels that they would get some whiskey there.

Caudle said he proceeded to withdraw.

GERMANY ACCEPTS TERMS OF ALLIES

After Much Wrangling World Aggressors Throw Up Hands.

(By the Associated Press)

BERLIN, May 11.—Germany's reply to the allied ultimatum accepting the terms laid down by the allies supreme council in London is confined to the repetition of the exact terms of the decision of the allies with regard to guarantees, disarmament, the trial of war criminals and financial conditions. The reply states Germany adheres unconditionally to the decision.

This reply was sent to the allied council for transmission to the heads of the allied government.

Berlin, May 11.—Germany's new cabinet began preparation of the government formal note to the entente today accepting the terms laid down by the supreme allied council in London.

Dr. Julius Wirth, the new chancellor, received that amounted to a vote of confidence in the Reichstag last night, that body approving of the ministry's decision to accept the allied ultimatum. The vote stood 221 to 175, giving the Wirth government a margin of 46.

In his address Dr. Wirth emphasized the tremendous burden Germany would assume in agreeing to meet the entente terms, but insisted that the alternative of French occupation of the Ruhr Valley would completely cripple German industrial life and demoralize the country. The allied demand in brief was the payment by June 1 of the one billion gold marks due on May 1, trial of German officers and soldiers, accused of crimes during the war, complete disarmament of the military, naval and arial divisions of the German army and the ultimate payment of the thirty three billion, seven hundred fifty million dollars in reparations.

The reparation obligation would be paid in installments of approximately four hundred eighty five million dollars per year in addition to 25 percent of the value of German exports. It is believed here that Dr. Wirth's answer to the supreme allied council will be an unconditional acceptance of the allied terms, but it had been indicated that representation would be made that compliance with the disarmament clause in the council's ultimatum might be attended by danger, especially on the eastern frontiers, where the Poles have engaged in a serious insurrection with the intention of taking possession of Upper Silesia.

RAILROAD LABOR BOARD ADJOURNS HEARING TODAY

(By the Associated Press)

CHICAGO, May 11.—The railroad labor board hearings over rules and working conditions ended today when B. M. Jewel, representing the unions, informed the board that he had completed his testimony with the exception of one exhibit which will be filed next week. W. T. White for the employees announced that the railroad did not expect to present further direct testimony.

The board will meet tomorrow to go into the question of a letter in which a railroad official is alleged to have ordered "defamation of the unions if necessary" to obtain information desired by the roads. The letter alleged to have been written by I. W. Geer, of St. Louis, of the Pennsylvania lines, ordered the supervisory employees to go to that extent in finding out the attitude of the employees concerning wage reductions.

The Pennsylvania denied authenticity of the letter, copies of which were produced at a hearing two months ago to the unions.

Those who believe in a tariff and those who don't will agree on one thing—to settle it quickly.

MAY DAY FESTIVAL AT NORMAL

May 9, 1921

The Ada Evening News, Ada, Okla.

Gentlemen: Please extend to the people of Ada a cordial invitation to attend the May Day Festival given by the East Central State Normal school on the Normal campus in front of the grandstand on the evening of Thursday, May 12th, at 5:30 o'clock. The admission to the grandstand will be absolutely free. The exercises are participated in by practically every young lady in the institution, and by the children in the training school. All departments of the Normal school have co-operated to make this event enjoyable, and it is very likely that this festival will be one of the best ever offered by any college in Oklahoma.

The high school band will furnish the music for the occasion. The program will last about one hour, thus giving people a chance to attend the exercises and get to their evening meal at about the usual time.

The Normal school will be delighted to have as its guests at this time the entire citizenship of Ada.

Very sincerely,
A. LINSCHIED, President.

**NINETY-YEAR-OLD
CO-ED SAYS STUDY
KEEPS HER YOUNG**

Mrs. Amy Davis Winship.

Mrs. Amy Davis Winship, 90 years old, has found a new fountain of youth. She never had time to get a college education until she was 79 and so she has been going to school ever since. She has decided that by continuing to be a schoolgirl she is able to really enjoy life as she did at 20, and so she has just entered another application for summer school attendance at Wisconsin university.

A nice, pleasant purgative that also has a genial stimulating effect in the liver and stomach is one reason why Prickly Ash Bitters is so well liked by men who have used it. They find it a good medicine for the whole family. Price \$1.25 per bottle. Gwin-Mays Drug Co., Special Agents.

Aaron Boggs, Freshman.

**NEVER YET FAILED TO
KEEP HER RIGHT**

"Tanlac has relieved me of a bad case of stomach trouble that made my life miserable for fifteen or twenty years," said Mrs. Margaret C. Grider, 906 Elgin Ave., Muskogee, Okla.

"Nothing agreed with me, and the gas which formed on my stomach bloated me up so that I suffered agony for hours. There was a pressure around my heart that almost took my breath away. I was so nervous and restless any unusual noise almost drove me distracted and I scarcely ever got a good night's sleep. I was so weak and run down I could not do anything hardly, but would just move about the house like I was half dead. I used every medicine I ever heard tell of, but nothing did me any good and I had almost given up hope of ever getting well."

"But after I got Tanlac I began to mend from the very start. My appetite soon became ravenous and I began to eat things I hadn't dared to touch in a long time. I have just finished my sixth bottle and haven't felt better in years. I sleep like a child, wake up refreshed and have strength to do my housework with ease. I always keep Tanlac on hand to take when I get to feeling a little bad, and it never fails to put me on the right road again. Tanlac is just grand."

**INCREASE IN FREIGHT
TRAFFIC IS REPORTED**

CLEVELAND, Ohio, May 9.—A noticeable increase in railroad freight traffic for the first three weeks in April is reported by M. W. Clement, general superintendent of the Pennsylvania lines in this section.

"Indications are that business is picking up, and that the increase will continue," Mr. Clement said. The Cleveland Terminal Car Service Committee reports that 15,306 tons of less than carload freight were loaded at freight houses during the third week of the month, compared with 15,178

tons the second week; 12,655 tons during the third week in January and 13,998 tons in the third week of December.

The number of cars loaded at Cleveland industries in the third week of April showed an increase over the second week, the number being 3,119 compared with 3,005.

During the same period 50,000 freight cars were moved in and out of Cleveland terminal, compared with 47,137 the second week.

Pure, nourishing blood makes healthy flesh, good muscles and a strong vitality. The reverse is the case when the blood is poor. To drive out impurities and enrich the blood take Prickly Ash Bitters. It is a most efficient blood purifier and system regulator for men. Price \$1.25 per bottle. Gwin-Mays Drug Co., Special Agents.

Aaron Boggs, Freshman.

THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

**How you can measure
tire value in 1921 —**

"Any U. S. Tire is a universal full money's worth."

OFTEEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the

country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

"The different tire views that come out in a chance talk."

FARMERS AND BOARD OF TRADE REACH AGREEMENT ON NEW LAW

CHICAGO BOARD OF TRADE

WASHINGTON, D. C.—Joseph P. Griffin, who, as war-time president of the Chicago Board of Trade, unlocked the transportation blockade and started grain moving to the allies, may also solve the marketing legislation problem. As spokesman of the nation's grain trade before the House committee on agriculture, he came to an agreement with Congressman Fincher upon the provisions of the Capper-Tincher bill regulating exchanges.

When he concluded his four hours of testimony it was with the clear understanding that Congressman Fincher would change the bill so that it would neither tear down existing marketing machinery nor destroy hedging facilities by eliminating future trading.

President Griffin told of steps recently taken by the Chicago Board of Trade to remove alleged abuses, including deals in indemnities, and heartily endorsed various sections of the proposed bill.

"It is constructive because it recognizes the necessity of hedging and that to hedge there must be a broad liquid market," he said. Then taking up the measure section by section, he suggested the

PRESIDENT JOSEPH P. GRIFFIN

changes necessary to maintain a futures market and still abolish what sponsors of that and other bills have termed abuses of the marketing system.

"It is not our intention to tear down existing machinery, nor to destroy the futures market," said Mr. Griffin, "and the bill will be amended to avoid such danger."

Mr. Griffin declared, in defending competent speculation, that 200,000,000 bushels of wheat are carried today by speculators, "who perform the greatest economic service in the commercial world."

Discussing contracts, he said the Chicago Board had no objection to changing delivery regulations. Questions affecting grades could be worked out, he said.

President Charles H. Wright of the Omaha Grain Exchange testified that had it not been for the Chicago Board of Trade 100 per cent of the middle west's corn would still be on the farms.

Other witnesses included farmers, co-operative elevator men, millers and county dealers, all of whom urged preservation of the futures market.

PLAY TO BE GIVEN BY HIGH SENIORS

Proceeds Will Be Used to Care for Adopted Child.

The Ada high school seniors are making preparations to give the most noted and highest quality class play of the season on Friday evening, May 13 in the Normal Auditorium. They have adopted an Armenian baby and will use the proceeds of the play for the purpose of supporting it. It is an established custom of each graduating class to leave the school with a good record, specializing on one thing. Some of the classes have hung pictures in the hall, built stadiums, secured tablets and other things, but the class this year have adopted the Armenian child.

The supervision of the play will be under Miss Eloise Adams, who is an experienced hand in work of this kind and has already made excellent showing with plays and other class undertakings this year. Much care has been shown in se-

lecting the proper characters and they are now practicing regularly. The plot, the characters and all that goes to make a first class play, is included in this one, each good quality blended together for the best results.

The title of the play, "Aaron Boggs, Freshman," is well known and the play has met with marked success everywhere. Music for the occasion will be furnished by the high school orchestra and everything will be done and no efforts spared to make it one of the best in history and the hit of the year.

The following is a story of the play: On the opening day of a small co-educational college in the middle west a congenial group of students are assembled on the historic college fence. Prominent among the number are Beau Carter, one of the "big" men of the college and Pepper Jarvis, who came to school to learn repose. After some good-natured chaffing, Happy Jimmie Jamieson, the most popular boy in college arrives. He announces his intention of becoming a grind and replying to the persiflage of the crowd, says that he is to be married as soon as he leaves school. Jimmie, however, is noted for his affairs d'amour and soon is busily engaged flirting with a homesick little freshman from Dayton, O. Miss Cherry Carruthers (the little freshman) is also engaged to a man back home, but is very glad to receive some attention from the gallant Jimmie nevertheless. Quite a crowd of stu-

dents and co-eds are assembled by the fence when Mr. Epenetus P. Boggs arrives bringing his son, Aaron, to college. The students have Mr. Boggs make a speech and promise to give Aaron a warm welcome. Mr. Boggs departs for his native village of Splinterville and Aaron is left to the tender mercies of the upper classmen, who immediately proceed to haze the freshman. The heroine of the play, Miss Elizabeth Maudelia Feeny, a very lady-like waitress, is also from Splinterville, where she is known as Lizzy Feeny. She encounters Aaron and by a clever subterfuge saves him from a ducking in the lake.

Act II shows the interior of Mrs. Chubb's select boarding house for students. Aaron has procured rooms here and is snubbed by the more aristocratic clientele until Beau Carter receives a telegram informing him that Aaron is the grandson of Stephen Boggs, an eccentric multi-millionaire. He im-

SUFFERED SEVEN LONG YEARS

Finally Relieved by taking Lydia E. Pinkham's Vegetable Compound

Ravenswood, W. Va.—"For seven long years I suffered from a female trouble and inflammation so that I was not able to do my housework. I consulted several doctors but none seemed to give me relief. I read in a paper about Lydia E. Pinkham's Vegetable Compound and I decided to try it, and before the first bottle was gone I found great relief so I continued using it until I had taken eight bottles. Now I am very well and can do my own housework. I can gladly recommend Lydia E. Pinkham's medicine to suffering women."—Mrs. BERTHA LIERING, R. F. D., Ravenswood, W. Va.

The ordinary day of most housewives is a ceaseless treadmill of washing, cooking, cleaning, mending, sweeping, dusting and caring for little ones. How much harder the tasks when some derangement of the system causes headaches, backaches, bearing-down pains and nervousness. Every such woman should profit by Mrs. Liering's experience. Remember this, for over forty years Lydia E. Pinkham's Vegetable Compound has been restoring health.

mediately becomes the lion of the school and is shown marked favors by Miss Newcomb, the queen of the school. His old sweet heart, Lizzie Maud, is forgotten in his newly acquired popularity, and he is invited to become the candidate for president of the freshman class.

Act III shows the rapid progress of the love affair between Jimmie and Miss Carruthers and the despair of Lizzie Maud as she realizes that Aaron has entirely moved from her horizon. Aaron is elected president of the class but the boys discover the telegram was a hoax. They immediately give Aaron the cold shoulder and he at last finds his true place in the college world and finds the faithful Lizzie Maud waiting for him.

Cast of Characters.
Aaron Boggs, a freshman from Splinterville—Harvey Neely.
Happy Jimmie Jamieson, a susceptible junior—Webb Middle.
Beau Carter, a prominent senior—Tyree Derrick.
Pepper Jarvis, studying repose at College—Tosca Cummings.
Epenetus P. Boggs, a pillar of Splinterville—Hubert Priest.
Mr. Chubb, born tired—Charles McKellar.
Casey Jones, a college politician—William Williamson.
Second Hand Abe, who does his friends good—Hubert Priest.
McGoggin, a football star—Dale Spears.

First Student—Edwin Coleman.
Second Student—Don Evans.
First Professor—Guy Meaders.
Second Professor—Mike Derrick.
Miss Elizabeth Maudelia Feeny, a waitress, but a perfect lady—Sarah Tunnell.

Mrs. Chubb, a boarding house-keeper—Clarine Roach.
Mrs. Pickens, a boarding house-keeper—Clara Rayburn.

Miss Evelyn Newcomb, a college belle—Bernice Roach.
Lois Hunter, a girl friend—May Guest.

Cherry Carruthers, with a changeable heart—Marguerite Anderson.
Loretta Rea, a romantic junior—Thelma Roberts.

Miss Dollie De Cliffe, nee Chubb, vaudeville queen—Ann Lee Coe.
Place—Any small co-educational college.

Time—The present.
Take about 2:30 for playing.

Aaron Boggs, Freshman.

Twenty-five cities in Oklahoma will be visited during the remainder of May and the first week in June by C. L. Dawson, national field representative of the American Legion. At each of the points Legion posts are to organize rally meetings of ex-service men from the district.

The first rally meeting was held at Oklahoma City on Tuesday at which Legion men from Chandler, Yukon, El Reno, Luther, Tuttle, Arcadia, Jones, Britton and Edmond joined with Oklahoma City Post No. 35 in welcoming the national representatives. Ardmore was the second stop of Mr. Dawson followed by meetings at Durant, Hugo and Poteau. In the second week the organizer will tour the northeastern part of the state.

Preparations have been made by several of the posts of the American Legion of Oklahoma located in cities where there are hospitals caring for disabled war veterans to observe Thursday, May 12, as National Hospital day. In Oklahoma City the Legion post asked the general public to co-operate by visiting men at the University hospital, taking convalescents to theaters and for automobile rides and by furnishing amusement for bed-fast patients.

Custer county has raised money for at least three wheel chairs for convalescent war veterans at the University hospital. One chair will be donated by the citizens of Clinton. Posts of the American Legion, have raised funds for at least two more.

Washita County Post No. 134 of the American Legion invited the whole city of Cordell to a house warming last week when it opened its new club rooms. And nearly ev-

ery person in the community visited the post headquarters at some time during the evening. The Legion orchestra, the post's phonograph and a program of addresses and vocal music entertained the visitors.

Posts of the American Legion and the citizens of Oklahoma have contributed \$883.70 for the decoration of the graves of those who still lie on foreign soil, according to the announcement of J. C. Chatfield, assistant state adjutant. The money has been forwarded to the Legion's committee in France which will superintend the decoration of every grave on Memorial day.

Instances where the American

Legion has lent a helping hand in times of catastrophe as well as in the ordinary routine of civil life are reported almost daily to national headquarters.

Texas and Arkansas Legion members assisted in the recovery of 100 bodies of victims of the recent Texas tornado as well as carrying on relief work among the survivors. The Williams post of the Legion at Clifton Forge, Va., has arranged to take up picks and shovels to help the city build a \$10,000 playground. The spring municipal house cleaning in Kansas City, Mo., and Enice, La., received fresh impetus when Legion members provided wagons and fatigue details for the work.

A Fund for Baby's Future

Start It Now on This Easy, Safe Investment Plan

THINK what it would mean to your boy or girl, to have a fund of \$6,793.58 turned over to them on their 21st birthday! Picture the possibilities it would hold for them—the start they'd have in life.

This is just what you can do—for your boy or girl—if you start a fund for baby now by investing only \$10 per month in the

7% Cumulative Preferred Stock of the North American Light and Power Company

In 20 months you will have the first two shares of stock paid for—and from that moment on you will receive interest at the rate of \$7.00 per year for every share purchased,—8% at present price. By re-investing your dividends in the stock, your savings will accumulate at the rate shown in the above illustration.

When your baby is 5 years old, the value of your holdings in this Company will be \$994.58;—at 10 years, \$2,093.64;—at 15 years, \$3,647.18;—and at 21 years, \$6,793.58.

We will gladly supply the details of our plan. Use coupon or call at office.

WHOLE DUTY OF MAN:—Remember now thy Creator in the days of thy youth, while the evil days come not, nor the years draw nigh, when thou shalt say, I have no pleasure in them. Let us hear the conclusion of the whole matter: Fear God, and keep his commandments: for this is the whole duty of man.—ECCLES. 12: 1, 13.

CAN THE PEOPLE BE FOOLED

Samuel Gompers and Frank Morrison, president and secretary respectively of the American Federation of Labor, addressed mass meetings recently to protest against "the nation-wide open shop movement."

Mr. Gompers said he believed that "the American people who did so much to defeat military autocracy in the last war will not now consent to the substitution in the United States of an industrial autocracy."

"Equal opportunity before the law, before government and in the democratic production of industry—that is what we demand and nothing less will satisfy labor."

These men talk about "equal opportunity before the law" industrial autocracy and democratic production."

Would either Gompers or Morrison allow any free born American citizens to work at his trade beside one of their union members if he did not have a card in the same union? No they would let him starve in the street or call a strike if an employer put him to work. Is this a sample of equal opportunity which they cry about? Is this democratic production? Or is it real labor autocracy? Let Mr. Gompers or Mr. Morrison answer. Would they allow a man to work in a so-called union shop without a card?

Is it any wonder the American people are backing the open shop movement when they realize that the closed shop program denies the primary rights guaranteed every individual by the constitution and about which Mr. Gompers likes to prate.

Belonging to a union should be neither a bar nor a requisite to securing employment. The principle of labor unionism is fine and can accomplish much good but the demands of labor autocracy are vicious. The public is not against the laboring man, it is against the labor dictators who exploit both the laborer and the public.

VOTERS USE JUDGMENT

The politicians in Ogden have been agitating in favor of a \$500,000 bond issue to build a municipal lighting plant on the plea that the private company does not give satisfactory service. The \$500,000 would have just about started construction of a duplicate system and additional millions would have been required of the taxpayers to complete the undertaking (of course this was not emphasized by the advocates of the municipal plant.)

Evidently the citizens of Ogden had been reading the papers and had profited by Seattle's experience with its municipal street railway system and its resulting deficits and tax burdens.

At the election just held the voters by a two to one vote authorized a \$325,000 sewer system plant but on the same ballot defeated the proposed bond issue for a municipal light plant.

The state has an excellent public service commission which the taxpayers are supporting and they evidently feel that if this body functions properly there is no occasion for them to stand the additional burden of duplicating a public utility service which they already have and which is under state regulation. A duplicate system under the circumstances would be an absolute waste of taxpayers money and taxes are high enough now.

TAX REVISION FOREMOST

The government has become accustomed to extravagance in the war. It must be brought up sharp. The way to retrench is to retrench. The country will expect congress to cut expense wherever cutting is possible.

Of equal importance is a revision in the system of taxation. The higher brackets of the income tax and the excess profits taxes have had a contrary effect to what was intended. It was supposed these supertaxes would be borne by the rich. Instead they have been shifted with heavy additions to the public. All taxes on business in the long run are added to prices. The trouble with the existing taxes is that their amount cannot be estimated by any business concern, so it adds a liberal allowance to its charges in order to take care of taxes whatever they may be.

The need is for some form of taxation that is perfectly definite and that will not unnecessarily swell the cost of living.

NITTS ON HOME BREW

By Dean Collins

Nescius Nitts, sage of punkindorf station, Perceived a black gnat, making swift aviation, A nicotine jet quelled the bug's animation, And after a moment of mild cogitation The sage spoke on liquors and intoxication.

"I see by the papers the country is tracked By agents inforcin' that there Volstead act, Which same lots of people, who should hold in awe The statoots, is strong for evadin' the law. Which minds me of dryness and its operation In Seventy-nine, here in Punkindorf Station.

"When Si Sprague was Mayor, an ordinance passed Which lashed old John Barleycorn plumb to the mast. But somehow, fer months, there appeared all around A sort of activity ne'er before found; The grocery store was deserted—each feller Appearin' plumb bound to hide down in his cellar.

"Each day begun bringin' some wild whispered news Of how this or that one got on with his brews, And smells from the cellars became so blamed fragrant That Sprague said: 'This is a-rittin' plumb fragrant!' And pore Marshall Conner lost all of his madder. Called out by the Mayor to raid other folks' caches.

"Fer months it seemed Bacchus was runnin' plumb loose; Then things settled down to a sort of a truce, And some of the home-brew blowed up in the cellars, And some of the stuff pizened some of us fellers, And, nobody knowed how it come, but the town Eventual jest sorter settled back down.

"And presently dandel's grewed once again, And back to the grocery store come the men Discussin' the tariff from every view With hardly a thought about mash or home-brew— Which shows, though we're keepers each one of his brother, Things gits back to normalcy somehow or other."

Representative of Inspection Bureau To Be Here Tuesday

Fire Chief Sumner Jones returned home last night from Oklahoma City, where he attended the session of the Southwestern Waterworks association, Monday and Tuesday. Commissioners Jones and Smith are still in Oklahoma City, having remained for the executive meeting of the association, which is being held today.

While in Oklahoma City, Chief Jones called at the offices of the Oklahoma inspection bureau and had a long talk with H. J. Clark, the chief engineer, and says that he learned a great many things about the bureau's requirements of cities before the minimum rates of insurance can be established.

Mr. Clark has arranged to come to Ada Tuesday of next week and explain the inside workings of the inspection bureau to the business men and the city officials here. He will meet with the city commissioners Tuesday afternoon and with the board of directors of the Chamber of Commerce Tuesday evening. At these meetings he will outline a plan of action, which, if followed in all details, will result in a saving of several thousand dollars annually in insurance premiums to the property owners of Ada.

The inspection to which the city is to be subjected by the state bureau will be postponed a short time, it is said, to give the citizens an opportunity to get in line with the recommendations of the bureau and thus obtain its approval of a lower insurance rate.

It is said that the cities of the state are classified by the inspection bureau according to the manner in which they conform, or fail to conform, to the requirements of the bureau. For each of the bureau's requirements adopted by the city a certain number of credits are given and the insurance rates are based on the number of credits received by the city, when the official inspection is made.

It is said that a special meeting of the Chamber of Commerce will be called for Tuesday evening to confer with Mr. Clark and it is thought that many property owners who are not members of the board will attend the meeting, to which all will be welcome.

Italy, hard up for funds, leased the old Roman colosseum to a theatrical company and there is some roaring at this desecration. Occasionally modern plays are had, but hardly as bad as "sleeking" lions on to Christians.

Mr. Peavish says that Mrs. Peavish is so hard up for weeps she sometimes cries over the baby picture that was taken when she was sitting in the wash bowl.

Horace Greeley's advice today would be, "Young man, come West and catch up with the country."

Aaron Boggs, Freshman.

Oil Items

Notes By The Way
from

The Ada Field

Wined and Dined

From the Stonewall News: One day last week, after having some experience with the oil maddened throng in the county seat, two Stonewall parties framed up to get back at the men they claimed had doubled crossed and criss crossed them the day previous. Seizing a large untamed negro buck from the Stonewall community, they loaded him with a beautiful tale of a dusky damsel he loved and was going to marry, and said damsel being an heirless to uncounted acres in the vicinity of the Ada wildcat. Taking the negro to Ada, they lost him in the crowd and saw him no more until the sun was low in the west when the colored boy appeared and requested to be "brung" back to the scenes of his nativity. The tale the colored boy tells of wining and dining, ham and eggging, jake and white mulling by Ada lease chasers is mighty interesting and very enjoyable to the perpetrators of the joke.

Life of Oil Wells.

WASHINGTON, May 10.—A bulletin has been issued by the United States Bureau of Mines dealing with "Some Principles governing the production of Oil Wells." A knowledge of the length of time a well will produce is of importance to the oil operator, according to the bureau, and not only does this knowledge make it possible to charge off on a sounder basis the depreciation on capital invested in physical property, but provides information for making depletion deductions on account of the progressive exhaustion of the oil resources, and gives the operator a working basis for the proper management of his property.

In some of the Appalachian fields the average daily production amounts to only a few gallons and the well is pumped not oftener than once a week. In the Gulf Coast field the lives of the oil wells associated with the salt domes, the bulletin says, are very short as a rule while the Healdton field wells as a rule were rather prolific and all had fairly high initial production. The fault in this field, the bureau points out, was the close spacing, owing to small holdings, which caused a very rapid reduction of gas pressure.

An increase in the price of oil may make possible the cleaning out of the well, the extraction of thousands of barrels of oil from it, and add many years to its life. The exhaustion of a property or a well does not necessarily mean that all of the oil has been withdrawn from the production sand, but rather that the property can no longer be operated at a profit. Absolute exhaustion of the oil in a sand is impossible, and the life of a well is, therefore, mostly a relative term.

Assuming that all wells are abandoned at the time they reach the production of one barrel a day,

wells in the fields of Oklahoma have an average life from two to twenty years. As a general thing, the bureau states, wells in the fields of North Texas and Louisiana, except the Ranger district, will produce from fifteen to twenty years before they reach one barrel daily. In Southeastern Ohio the average life is from ten to fifteen years, and in California the productive horizons are thick and the gas pressure unusually high, so that wells producing under the conditions probably will not reach the minimum production for twenty to twenty-five years.

To Build Supply House

The first of the large supply houses to locate in Ada since the boom is the Parkersburg Rig and Reel company, they are at present figuring on two different sites, that adjoin the Frisco Railway, and it is said that a permanent location will be established this week. The Parkersburg people are the first of the supply houses on the ground in almost every field. They are at this time constructing several one thousand barrel tanks, just north of town and have on the road several more car loads of supplies and tanks for the local branch.

It is reported that two of the other supply houses are here looking over the local situation and that they are planning on opening branches here, as the business at the present time demands local representation.

Receive Offer for Oil.

In an interview with the officials of the Carter-Nance-Laselle, the reporter was told this morning that one of the largest buyers of Mid-continent crude had already made an offer for their production, and that he was ready to start the movement of the local crude whenever the officials of the company were ready for the same. At the present time there would have to be laid a line to Center switch and there the oil would be loaded into tank cars. This would mean construction of a line about six miles long and would serve as the feeder line for the other wells, as they come in.

Rag Town Started

The little town of Stratit is the scene of very much activity. The first building has been completed, and it will be occupied by the Ragdale Cafe, under the management of R. S. Ragdale and C. E. Kemp of Oklahoma City, who heard so much of the Ada oil field that they decided to be the first to locate in the new oil city of Oklahoma. It can well be said that an oil town has never been known to grow without the so called rag town that is built adjoining the oil field, as it saves the operators quite a bit in the transporting the men from the field to town every night. Some of the best towns in the state had their

start as rag towns and in the Burk-burnett field there were four different rag towns, with an estimated population of thirty thousand people.

The owners of the town site propose to have their main boulevard one-half mile long and have made arrangements that it can be extended any time they see fit. In an interview with a reporter from the News, the manager stated that he has received many applications regarding the said town and it is the belief of the owners that most of the lots will be disposed of this week. They are at the present time figuring with parties who intend to build a hotel that will accommodate fifty people and have the lower floor occupied with a first class confectionery.

Lease Hounds Increase

Activity among the lease hounds seems to be increasing, as several new faces were seen around the various offices handling leases and it is reported that several trades have been made this morning. The apology made by the Oklahoma yesterday seems to have helped the local situation very much, as some of the old faces were seen back in town this morning, looking over the situation and the majority going out to the well. Some of the ones that were the first to get back to town were surprised to see the great amount of oil that the discovery well is making.

The population of scouts is increasing and some of the large companies have their scouts on the ground watching the developments. Several scouts from the El Dorado field have camped here and it is understood that some of the El Dorado operators intend to invade the Ada field as soon as the next test is made.

Good Road Motor Club Holds Most Enthusiastic Meet

The Good Road Motor Club met in regular session yesterday afternoon with all officers and directors present with the exception of the Stonewall director.

The general condition of the roads was the first topic for discussion and it was unanimous that the condition of the roads was the best they had ever been at this season of the year.

Mr. Reed, director from Stratford, stated that he drove over easily in forty minutes.

The secretary's report showed that practically every highway in the club's territory had been gone over carefully and all impassable places had been brought to the attention of the county commissioners who had responded promptly and the same were repaired.

The report showed that action has been brought on the county commissioners to change the road to Roff instead of going over the "shoot to shoot" hills between Lawrence and Fitzhugh, make the highway to the right which will be a nice level road and do away with the hills entirely.

The report showed that the club was doing everything in its power to get action on the federal project No. 50 which is the Allen road, but the best promise they have is that the bids will not be let until the first of June, as the department is so far behind with work, this is the earliest it can give it attention. The question of a road for Maxwell township was brought up and it was found that the club has already taken action to get a good road in that vicinity as quickly as possible.

The secretary's report showed that every gasoline station in the district was contributing one cent each in every gallon of gasoline

PRESIDES AT 30TH D. A. R. CONGRESS

Mrs. George Maynard Minor.

Mrs. George Maynard Minor of Waterford, Conn., president general of the Daughters of the American Revolution, is presiding over the sessions of the thirtieth continental congress being held in Washington. One thousand delegates representing 120,000 members are attending the congress.

sold, except one station in Ada, which had absolutely refused to pay anything for the making of streets and roads. It will be up to the citizens to patronize the stations which donate this revenue to the club, and will also be up to the members of the club to patronize people who are in business who do buy from the stations which make these donations.

The club voted to put on a real membership drive and not stop until they signed up every one who drives a motor vehicle, and for this drive the secretary was instructed to order a thousand emblems for the club which will be a very attractive ornament to attach to the radiators of the cars of members.

N. B. Stall, president of the club, stated to a News reporter, this morning that the officers were very optimistic over the clubs progress, as Mr. Roach reports the club to be in excellent financial condition, and if the public will just stay with the stations which are contributing to the road fund, and with the co-operation of the county commissioners, every highway in the club district will be a pike within the next twelve months.

I. O. O. F. Encampment.

The local I. O. O. F. Encampment met last night at the hall and put on the Royal Purple degree to two candidates. There was a good representation of the lodge present and the work progressed nicely. After the degree work had been completed a luncheon was served and the members were given a real feast. At each meeting of the encampment they always have a great time and all enjoy them.

Five dollars a month is all it will cost you to buy a brand new Rex Visible Typewriter; an improved typewriter at a very low price. J. L. Dee, Typewriter Exchange, 111 West Twelfth Street, Ada, Okla. Phone 670. 5-11-1td

MODART CORSETS Front Laced

—for Summer Comfort

Summer corsets, light in weight, low bust and lightly but correctly boned, will add materially to your physical comfort during the warm days. Whether one goes in for sports or not, it is important that one be properly corseted. These new Summer models give the fashionable silhouette and at the same time afford ease and freedom of movement. For hot weather it is a good plan to own two, so that one may have a fresh, cool change at the end of the day.

Let our experienced corsetiere fit you to a new MODART model. Remember figures as well as styles change. You may possibly require a different model and size of adjustment from your last corset.

Priced from \$4.00 to \$10.00

NATURE'S RIVAL

Brassieres Improve the Figure

Good corsets deserve to be worn with a Brassiere. They finish the work that good corseting begins. That trim, well-groomed look a figure has is the result of teamwork between a corset and Brassiere. Our collection includes models in net, tricot, satin and other tub stuffs in bandeau or regulation brassiere styles. They are a great support also to the uncorseted figure.

SOCIETY

(Continued from Page 1)

in about three blocks of the Daniels home with the man who later shot him. He said they separated, at Daniels' request, and approached the Daniels home from opposite directions, to "keep Daniels' father-in-law from seeing them together."

Caudle said he saw Daniels' wife leave the house just before he and Daniels arrived. Daniels, according to the witness, called at his wife, asking her if a man had come with the whiskey. He said she answered "No," and continued on her way down the street, while he and Daniels entered the house, Daniels remarking that she was a "hell of a kind of wife for a man to have."

Didn't Find Whiskey
Caudle said they searched the house for whiskey and failing to find it, they sat down on the bed to play pitch, until the bootlegger should arrive. He said they had played one game, when Daniels arose and went into an adjoining room, to see if he could see the whiskey peddler coming.

According to Caudle, he sat on the edge of the bed, with his back to the door, through which Daniels passed, "stacking the cards." He said Daniels was in the other room but a few moments, when he re-entered the room where he was and without any warning whatever, shot him in the back of the head. Caudle said he fell over on the bed and Daniels continued to fire at him with the pistol, hitting him with almost every shot. After being shot four times he grappled with his assailant and, after striking him in the face, ran from the house. He said Daniels followed, firing at least one shot, which struck him in the body.

Wrote Daniels' Wife
On cross examination he admitted that he had written letters and notes to Daniels' wife, trying to get her to leave her husband and live with him. Letters were presented to him by Attorney Crawford for the defense and he admitted having written and delivered them to Mrs. Daniels. He insisted however, that he went to the Daniels home at the invitation of the man who shot him, and the most rigid cross examination did not alter that portion of his testimony.

W. H. Green, who lives near the house where the shooting was done, told of hearing the shots fired in the house and seeing Caudle run from the house, closely followed by Daniels, who fired at Caudle as he ran. He did not see the men enter the house, previously, and knew nothing else about the case.

Mrs. Ethel Draper, 801 West Thirtieth, told of seeing Caudle and Daniels approach her home together from the east, shortly after noon the afternoon of the shooting. She went, but testified that Caudle passed her home, going west, by himself.

Other witnesses were on hand to testify for the state, but the case was rested by the county attorney, who announced that he was of the opinion that sufficient evidence had been introduced to justify the court in binding the defendant over for trial.

No testimony was introduced for the defense and the letters, which had already been submitted to, and read by, Judge Brown, were withdrawn from the record. Daniels made \$500 bond for appearance for trial in the district court at the next term.

Mrs. Daniels Present
Mrs. Daniels was present in the court room and sat at the counsel table beside her husband throughout the trial. When the trial was over the two left the courthouse together.

Caudle has almost recovered from the five gunshot wounds. He limps as he walks from wounds in the right foot and right leg and still wears a patch on his nose, where the doctors removed the bullet which struck him in the back of his head. The wounds in his right side and right arm are said to be almost healed up.

GERMANY YIELDS TO ARGUMENT OF FORCE

(By the Associated Press)
PARIS, May 11.—Newspapers of this city professed this morning to see in Germany's acceptance of the allied reparation demands, proof that Germany complies to the argument of force. At the same time they express doubt as to her fulfillment of her undertaking.

"German statesmen," said the Fairgare, "made up their minds only at the last moment, but finally decided to accept the principle. As for the execution of her agreement we will see what time will bring."

"Let the German government pay and disarm," declared the Journal. "Otherwise like all faithless debtors she will have only herself to blame if she finds herself sold up."

The Echo De Paris remarked, "The Germans in bowing to the ultimatum, have the air of complying to what is asked of them, but no one henceforth may deny us the right to go ahead upon the first backing of our adversaries."

We are sure of one thing, a people are never as foolish as their musical comedies.

The Census Bureau reports illiteracy decreasing, notwithstanding the spelling in movie titles.

It is the hard road that leads to Easy Street.

GARRY ENGAGED? HE SAYS "JOKE"; SHE SAYS "FACT"

Mrs. Elizabeth Dougherty.

Dispatches recently carried the announcement of the engagement of August Herrmann, president of the Cincinnati National league baseball team, and Mrs. Elizabeth Dougherty of Chicago. At first Garry was quoted as saying the wedding would take place next July. Later he said the report was just a joke "put up" by his friends. "Sure, we're engaged," says Mrs. Dougherty.

"Skirt Rule" in Kansas Town Is Making Men Hustle to Keep Up

Leading figures in the woman government of Thayer, Kan. Left to right, above, are Miss Allie Lambert, council member; Mrs. A. H. Forrest, mayor, and Mrs. Daisy Savage, council member. Below are Mrs. Ina Craig, council member; Mrs. Eunice Rash, council member, and Mrs. Ivy Cross, council member.

THAYER, Kan., May 10.—(Special)—Already new sash curtains are fluttering at the windows of Thayer's city hall, now completely in the hands of women.

The hitching post faction, comprised of old men and chief opponents of what they call "skirt rule," is finding it hard to keep step.

They are being called upon for a little fast thinking, for already talk of a more regular supply of ice for the summer and cheaper natural gas for the winter is floating significantly about.

All of the women elected to run the town wear kitchen aprons when they do their own housework, and all except one have children. Three are widowed grandmothers; one is a maiden telephone operator and the other three are housewives with husbands and young children. Mayor Abby Howe Fores is five feet tall, a bundle of energy and New England enterprise combined with a charming manner and a sense of humor. Mrs. Hattie Mills Brewster, police judge is a grandmother to six and the widow of a lawyer. Mrs. Eunice Rash, mother of three fine boys, wife of the town banker and a native Kansan, is a member of the city council. Miss Allie (her real name is Ethel Lambert), telephone operator, and member of the council, is recipient of numerous proposals of marriage since her election. Mrs. Ina Craig, housewife, is a member of the city council. Mrs. Daisy M. Savage, mother of three children, is also a member of the city council. Mrs. Ivy Cross, president of the city council, mother of five children is chairman of the committee on city property, which includes a seven-acre park of much beauty.

When two widowed grandmothers, a telephone operator and three housewives hold the civic destiny of 500 Kansans in their keeping, it is not surprising that a stern conscientiousness of duty will prevail.

Petticoats in Ascendancy
"You'd think they was arunnin' the White House," said one of the hitching post faction. The posts were removed by a recent progressive administration.

But now even William Curry, the town's chief merchant, who favored the hitching posts most of all because you could carry groceries more easily out to the buggies hitched at them in front of his store, confesses that this is now an issue buried forever with the dead past and the supremacy of man.

He admits that the women have put Thayer on the front page. A public bonfire to burn the comforts in the jail which are

dirty," as one councilwoman said, will be one of the rites performed by the women. A lot of drums and other band instruments bought by some bygone frivolous mayor will be sold or discarded and the floor of the fire engine house will be swept.

Clean Up the Jail.
"We're likely to do almost anything," remarks Mrs. Ivy Cross, president of the city council. "We're finding a lot of ordinances that evidently nobody ever read."

There is only one lawyer in town, Judge John Dunsmore, known politically as the "bad hornet of Neosho valley," because of his mastery of stinging repartee.

Petrograd is on the retrograde—Washington Post.

HOT, DIZZY FEELING
Atlanta Lady's Uncomfortable and Annoying Condition Relieved, She Says, by Cardui.

Atlanta, Ga.—Miss Allie Frances Young, of 28 East Alexander Street, this city, says: "After entering womanhood, I suffered so much with womanly weakness. My back ached. I would have, at certain times, a hot feeling that seemed to go to my head. Even my shoulders would hurt, and it made me very dizzy and uncomfortable. When the blood would flow to my head—I suppose that was what it was—I would faint and feel so weak."

"I couldn't do my work. I had a good position, and this was surely annoying as well as embarrassing. I would usually have to go home and go to bed. I certainly suffered greatly."

"I heard of Cardui, and my mother bought it for me. It was the first and only medicine that ever did me any good for this trouble."

Dizziness, headache, sideache, backache, tired-out feeling and other disagreeable symptoms are often signs of womanly troubles. Thousands of women who formerly suffered from these and similar ailments have found Cardui a very valuable remedy.

Cardui is composed only of pure, vegetable ingredients which have long been recognized as of medicinal value in the treatment of many diseases and disorders peculiar to women.

Take Cardui.
Your druggist sells it. NO-140

QUESTIONS ASKED JOB SEEKERS BY EDISON

NEW YORK, MAY 10.—Do you know who invented the cotton gin or what violin strings are made of, or what a monsoon is, or from what city most of our laundry machines come?

Those are four of the test questions—four out of 163—asked of prospective employees by Thomas A. Edison. And it is from the replies to this list of questions that Edison bases his declaration that the average college graduate is an ignoramus.

Seventy-seven of the questions on the Edison list, hitherto guarded as a trade secret by the inventor, have leaked out through the medium of one of the men who took the test—and failed. The man, too was an honor man at Cornell.

Three questionnaires Edison's system has been in use for about two months. W. H. Meadowcroft, his secretary declared Tuesday. Three questionnaires have been prepared. Sometimes all three are used, sometimes only one.

Now in connection with the case of Edison vs. the universities, it may be pertinent to point out that one of Edison's teachers once called him "addled." This was when Tom was a little boy. At the foot of his class, where he usually stayed during his seven years of public instruction.

The remark so wounded the feelings of Mr. Edison's mother that she pulled him out of school and educated him herself. And Edison finished the job with his own reading. Today Edison is Edison. Perhaps if he had gone to college he would have been an ignoramus.

However, while Edison's secretary wouldn't vouch for the accuracy of the list and was a little put out to think that it had become known to the public, thus requiring the compilation of a wholly new set of ques-

tions. Here are some of the tests the "honor" man fell down on: Who discovered how to vulcanize rubber? Who invented printing? Who was the most famous maker of violins? Who wrote Don Quixote? Who wrote Les Miserables? Who discovered the Pacific Ocean? Where is Tallahassee? What newspapers do you read? Of what is porcelain made? Where is the largest telescope in the world located? How is leather tanned? Name the three principal alkalis. From what country do we get our figs.

And what are felt hats made of? If you can think up any more questions, they are probably on the list, too.

Most of the applicants think that the celebrated Mr. Gordon invented the cotton gin and that a monsoon is a French gentleman.

Nations will not cease dreaming of war until they cease sleeping on their arms. — Norfolk Virginian-Pilot.

English news must be good reading to the Irish.

HAPPY WOMEN

Plenty of Them in Ada, and Good Reason for It.

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. When she finds freedom. Many readers will profit by the following.

Mrs. J. W. Smith, 403 Cherry St., Ada, says: "Doan's Kidney Pills surely are a fine kidney remedy. My kidneys were disordered and I was bothered a great deal by kidney weakness. My head ached like the toothache and at times I would be so dizzy my head seemed to swim. I used Doan's Kidney Pills and it was but a short time before I was entirely well. I shall never forget to boost Doan's."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smith had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

84% of All Failures Were Non-Advertisers

These are the 1920 figures of the big commercial agencies.

They are interesting statistics, yet there is nothing remarkable in the facts disclosed.

The concern that advertises recognizes that advertising is the greatest and cheapest selling force we have today.

And moreover, the advertising is in itself evidence of business life. It is enthusiasm for quality and service bubbling out into print.

All advertising does not succeed. Sometimes it is badly done. Advertising in the right place, at the right time, backed by the right goods will invariably win.

The foundation of advertising success is picking the right markets and the right medium. The national advertiser who starts on this basis plans intelligently and has the battle half won.

The right medium for reaching the largest number of customers, at the lowest cost, in any market, is the daily newspaper.

The Evening News is the medium for a radius of 50 miles square around Ada.

Facts About the Counties

Each day some facts will be printed about an Oklahoma county in their alphabetical order.

CADDO—One of the largest counties in the western part of the state, it has an area of about 1,400 square miles, divided into the following: area of county, 881,280 acres; number of acres in farms, 713,536; number of acres in cultivation, 414,607; and number of acres in pasture, 292,051. The principal crop is wheat. The altitude is 1,400 feet.

Previous to the opening Caddo county was a part of what was popularly known as the "Big Pasture," where ranged countless herds of cattle by the native Indians and old time cattlemen. It was at first considered a cattle country and little agriculture was attempted. Not until 1902 did agricultural developments begin and then in a small way.

The County now is essentially an agricultural county, however the oil industry ranks very high. The leading crops are wheat, corn, cotton, kafir, oats, sorghum cane for hay

Was a "Bear Cat"

"My wife was never an angel, but after five years of liver and stomach trouble she became a 'bear cat.' No doctor or medicine helped her and we thought there was no help for her. Our grocer told me of Mayr's Wonderful Remedy, which had helped him for same trouble, so I brought home a bottle, but she promptly threw it out. I got it back and after a week coaxed her into taking it. She is now enjoying the best of health and disposition." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

and broom corn. Potatoes are also widely planted. It has practically no minerals although cement is found in the southern part. Glass sand is in evidence. In the central part are found quantities of walnut and cedar of considerable commercial value.

The soft rock which underlies the county weathers easily and produces a good thickness of fertile soil. Between the Redbeds plains and the Gypsum hills region, the northern part is underlain by red shales and sands, the surface being rolling to hilly. The drainage is into the Washita river, the value of which is well known for its productive soil of sandy loam.

The Washita river furnishes power to towns along its banks and is capable of development as an agency for irrigation. Water is obtained from wells while for agricultural purposes the rain fall is sufficient.

Two railways cross the county, making facilities fairly adequate. State highways are found at intervals, the Ozark Trail and the Mer-

STRAWBERRIES GROW TO GIANT SIZE IN SUNNY MOUNTAIN OASIS

RIPENED IN MOUNTAIN SUNSHINE

TERRACE, B. C. — Nestling among snow-capped mountains and fanned by breezes from the sea, Terrace is one of the garden spots of British Columbia. It is famous for its big, luscious strawberries, known as "Skeena Wonders," seven to nine of which fill a box, all wine-red to the core. Ripening after other berries are garnered, they have the market of the continent to themselves. Daily in season shipments go to Prince Rupert, Vancouver, Victoria and eastward to cities of the prairies. A profit of \$500 an acre is not unusual.

Terrace is on the Grand Trunk Pacific Railway, 94 miles east of Prince Rupert, Pacific Ocean terminal of the transcontinental line of the Canadian National Railways System. Just here the Kitsumgallum and Lakelse valleys open from the Skeena valley. Broken by low divides, the curving valley touches the sea at Alice Arm on the north and by the Kitimat valley at Kitimat Arm on the south. Kitsumgallum lake is fifteen miles north and Lakelse lake, ten miles south, gem-like tarns swarming with game fish.

The valleys are from three to six miles wide and from sea to sea about 100 miles long. The rivers have made the soil deep and fertile and the sea has made the climate mild and salubrious. These circumstances have united to make the Terrace region unique. It is an oasis of extreme agricultural richness in a setting of mountain granite.

The valleys are rapidly filling with settlers, all of whom have

gone in for small fruits. Nearly all the land, when cleared, is divided into ten-acre fruit farms. Raspberries, currants, gooseberries as well as apples, pears and plums thrive famously. Dairying, poultry raising and beekeeping are developing. Prince Rupert and other neighboring towns furnish perennial markets for all this garden spot can produce. Both the fruit and vegetables are of unusual size and delicious in flavor.

GRAIN GROWERS TO HOLD MEETING AT GRAIN MARKETS

CHICAGO, May 8.—Conferences of officers of farmers' organizations will be called shortly by the sales department of the U. S. Grain Growers, Inc., the recently organized farmers' co-operative grain marketing corporation, it is announced by headquarters here. Meetings will be held in the principal grain markets. Their purpose is to get suggestions relative to the establishment of zone sales offices, their management and other details.

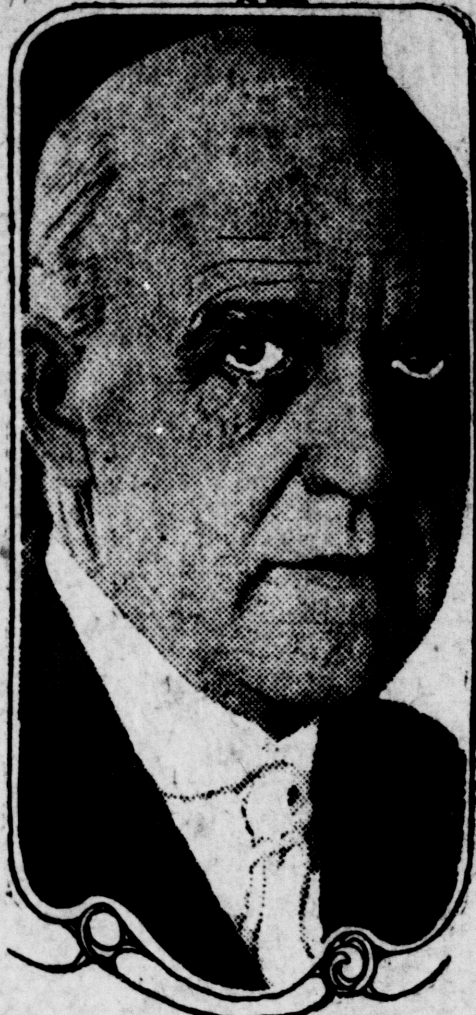

The first meeting will be held at Columbus, O., May 12th. It will be in charge of J. W. Anderson, president of the Equity Co-operative Exchange at St. Paul who is chairman of the sales committee of the new co-operative company.

Similar conferences will be held at Kansas City, Omaha, St. Paul and Minneapolis, Chicago, Spokane and Ft. Worth. Dates have not been determined. Invitations will be extended to officers of all farmers' organizations in each territory and all such representatives of farmers will have an impartial voice in the meetings, it is stated in the announcement.

Several requests have been made to the corporation by state elevator associations asking for permission to organize the memberships of their co-operative elevators and relieve the company of performing that work. President Anderson reports that there is a strong sentiment in favor of accepting these offers on the ground that co-operative elevators will furnish a very desirable nucleus for field organization work to follow. It is probable that this will receive favorable action at an early meeting of the farmers executive committee, according to the statement.

Preparations are being made for the immediate formation of a finance corporation, an export company under the provisions of the Webb Act and other subsidiary corporations in certain states, it is announced.

NAMED DIRECTOR OF U. S. CENSUS

William M. Stuart.

William M. Stuart of Michigan was recently named by President Harding to be director of the census.

Tulsa Tribune: We are anxiously awaiting the publication of that Indian Guide's alleged love letters to Mrs. Stillman, but more as a matter of education to our old friend, Jackson Barnett, of Henryetta, than for the gratification of mere curiosity.

Raises Money To Buy Flag for Colored School West of City

D. W. Hightower, a colored gentleman who is spending his time in working for the negro in this part of the state has just completed a task of securing money for the purpose of purchasing a flag for the Athen school house several miles west of the city and to better other conditions in the school.

The money was secured by general subscription of the business men and most of those visited responded readily for this good cause. He is doing all in his power to bring about better conditions for the colored in this country and has succeeded to a great extent. The following is a list of names of those who subscribed to the fund:

J. W. Lovelady 25c; L. T. Walters \$1; J. W. Dea 25c; T. Crawford \$1; J. E. Hickman 10c; F. L. Finley 50c; O. E. Parker 50c; L. E. Franklin \$1; J. H. Kirby 25c; A. T. Boggan 50c; J. R. Hughes 25c; Wilbur Lee 25c; J. W. Westbrook 25c; B. Lizer 25c; Community Market and Grocery 50c; R. J. Kearns 25c; Gary Kitchens 50c; G. M. Burnett 50c; Ada Market 25c; R. C. Guest 25c; Gwin & Mays 50c; G. Young 25c; John Bain 25c; Cash 25c; J. C. Sparks 50c; Waits Drug Store 25c; Shaw's 50c; F. A. Ford 25c.

The flag was purchased and the money is being put to the best advantage for the students. The members of this school wish to thank those who assisted them in securing the American flag.

Pimples and blotches on the skin are caused by bilious impurities in the blood. The right remedy is Prickly Ash Bitters. It removes the cause by purifying the blood, liver and bowels. Price \$1.25 per bottle. Gwin-Mays Drug Co. Special Agents.

THE Model CLOTHIERS QUALITY SHOP

BATHING POOL IS ABOUT COMPLETED

City Should Be Proud of Latest Civic Improvement at Park.

What is the latest boast for the city?

In the past the city found time to boast of its various improvements and assets, but never before has anything of civic significance been had that will afford as great a boast as will the new swimming pool which is now nearly completed, in the Glenwood park on West Main street.

To those who have not seen the pool, with its bath house, and other accessories, a surprise is awaiting them when they do. The pool has been completed, except the diving board which is to be installed this week. Hand rails are also to be put up and a high wire fence will be built around it, allowing only one entrance to the pool. The bath has been built and the lockers, benches and other finishing work is yet to be completed before it will be ready for use. The appearance that is now given by the pool is a good one and is a credit indeed to the city.

Will Compare With Best

It has cost approximately \$8,500 and when completed will compare with the best in the state and the larger cities of the country. The very latest improvements have been adopted and the plan of the pool has been drafted from those of Kansas City, Chicago and others. Lockers are being installed to care for 125 people at a time and the pool will hold water from the depth of two to nine feet. It is large enough to care for all and a place will be fixed for visitors.

The bath house, which is a large modern one, is located on the east side of the pool, contains two large rooms and an office. The only entrance to the pool will be through this house, the door opening into the north end and the boys on the south. Doors from the office and separate doors lead to the pool from each room. A shower bath has also been provided in the dressing room for those who care to use it.

To Be Self-Supporting

The pool will be operated on the order of the leading pools of the country and it is planned at this time to charge only enough to pay for the up-keep of the affair and the expenses of a man to keep it.

Water connection have already been made and as soon as the finishing work is completed it will be ready for use. The contractors, the Yates and Galamere Construction company, have done a good job of building the pool, and altho the rain and other bad weather conditions have caused much delay, they have pushed it to almost completion. This company has done considerable construction work in the city

and have always given good results. They have announced that it will be ready for the city in two weeks at the most if nothing happens to cause delay. It is not known yet whether any opening program will be given and the exact opening date has not been announced. People of all classes and ages will be admitted, according to statements made.

School Activities for Next Week Are Now Being Planned

Next week is to be a busy one for the Ada public school as each day will see some school activity. Beginning with Sunday the Baccalaureate Exercises will be held in the Normal auditorium. Sunday evening beginning at 8 o'clock.

Dr. N. P. Patterson of the Presbyterian church has been asked to preach the sermon and a musical program will also be rendered in honor of the graduating class.

Following this opening of the closing exercises the next three days, Monday, Tuesday and Wednesday, will be spent in giving the final examinations to all grades and classes to which they are due. Owing to the large number of students it is expected that the time will be well filled.

On Thursday of the same week the closing exercises of the first schools will be held at the First Methodist church, at which time the certificates of merit and promotions will be given to the pupils completing the 8th grade of the city schools.

On the same evening the junior-senior reception will be held in the Elk's hall at which time the members of both classes will enjoy the annual junior-senior banquet and entertainment. The reception will commence at 8:30 Thursday evening.

Friday will be the last day of the school year and all work for the present semester will be ended. Promotion will be made at this time to all students in each class who have completed the course and who deserves it.

The final school event will be the graduating exercises which are to be held at the First Methodist church on Friday evening. At this time Dr. A. Linscheid of the Normal will deliver the class address and other class numbers will be given.

Trophy Won in Meet Is Now on Display at Ada High School

The High school orchestra, winning the loving cup in the district meet here, has just received the beautiful trophy and it is now on display at the High school building. Many other cups have been won by the school and this will be added to the already large list, if it is properly defended for three consecutive years.

Being the first orchestra entered in the meet to win, they have been given the first cup to defend, and should they prove as successful in the two coming years as they did at the last meet, it will then become permanent property of the school.

MAY DAY PROGRAM IS GRAND AFFAIR

May Queen and Attendants to Celebrate in Great Style.

Sweet May has come to love us, Flowers, trees their blossoms don; And through the blue heavens above us The very clouds move on.

—Helme. With the strains of sweet music the May Day Fairies, the sweetest of the kind, will begin their annual revel Thursday evening. Just as the sun is sinking in the west, all the beauty, romance and gaiety of May will be seen and heard on the Normal campus on Thursday evening of this week at 6:30 o'clock when the annual May Day celebration is held.

All the seasons, colors, flowers and birds will be represented, the Old English May Day program will be carried out in full and dancing and music will be featured at this time. Costumes, plans and scenes have been carefully selected and drawn-up to give the best effect and the entire school is preparing to make this the one event of the year that is unsurpassable.

Hundreds will take part in the event and if present plans work out it will be by far the greatest affair of this nature ever held in the history of the school.

May Queen, Lady Alice of the House of Cameron, and Robin Hood, Lord Marvin of the House of Cassidy, have chosen as their attendants the following Lords and Ladies: Lords George Pentem, Lloyd Chism, Barry McKee, Sam Little, Raymond Caskey John McKee, Ed. Brents, Hardy Roach, Archie Cooper, Meaders Jones, Truman Anglin, Clarence Bronaugh, Dewey Hodges, Jop Rogers, Arthur Harrison, Ulysses Gaither William Riddle, Cliff Tinkle, Guy Orr True Emerson and Ladies Lura Blanchard Mary Frances Case, Jean Cotton, Natalie Manville, Lila McKindree, Mildred Robinson, Vera Wallace, Grace McKee, Monette Byrd Nora Lee Villines, Edith Brown, Mae Burdick, Kathleen Smith, Inez Bement, Jennie Lou Rogers, Jewell Dial, Corinne Moore, Elizabeth Owen Hill, Bessie Kitchens, Edna Driskell and Bernice Catron.

Program. The program to be given during the evening has been drawn up with care and has been arranged as follows:

At the blast of the trumpet the Fairies will begin their evening revel following which will be the Grand Procession of the May Queen and Robin Hood. The Spring Dance will then be given following which each season will be represented. The Dance of Summer, The Dance of Autumn, The Dance of Winter, Wand Drill and the Winding of the May Poles will

FIGHTING SHIP TO BE LAUNCHED AT TACOMA SOON

TACOMA, May 9.—The scout cruiser Cincinnati, the third of three sister ships which will be the fastest fighting vessels in the U. S. navy, will take her maiden plunge into salt water here at 6:30 o'clock this evening. Mrs. Charles E. Tudor, wife of the director of safety of Cincinnati, Ohio, will break a bottle of Ohio river water over the stern of the vessel in sponsoring the newest of Uncle Sam's craft. The boat will be launched bow first.

Construction records were broken on the Cincinnati, which is being sent into the water of Puget Sound just 11 months and 24 days after her keel was laid, seven months ahead of schedule. Her sister ships, the Omaha was on the way 24 months and the Milwaukee 18 months.

The Cincinnati's length is 550.5 feet and she is only 55.4 feet across the beam. She displaces 7,100 tons. Her power plant will develop 105,000 horsepower.

The power will be carried to four propellers, two on each side of the ship. Those propellers are expected to drive the boat through the water at a 40 mile an hour clip, the specifications requiring that the Cincinnati make 35 knots an hour on her trial trip. The Cincinnati, is equipped with twelve 6-inch high-powered, rapid-fire rifles; two 3-inch anti-aircraft guns; two 3-pounders; two machine guns; and two twin torpedo tubes.

When completed the Cincinnati will have cost approximately \$3,000,000.

Notice of Sale of Oil and Gas Lease. State of Oklahoma, Pontotoc County—ss.

In the County Court Probate No. 2130.

Notice is hereby given in pursuance of an order of the county court of Pontotoc county, state of Oklahoma, made and entered on the 27th day of April, 1921, the undersigned guardian will offer for sale and sell at public auction to the highest and best bidder an oil and gas mining lease on the 2nd day of May, 1921, at 10 o'clock a. m., the following described lands situated in Pontotoc county, state of Oklahoma, to-wit:

An undivided 2-12 interest in and to the southwest quarter of the south east quarter and the south half of the northwest quarter of the southeast quarter and the southwest quarter of the southwest quarter of the southeast quarter, and the northwest quarter of the northwest quarter of the southeast quarter, section 19 township 5 north, range 5 east, containing 120 acres.

Said oil and gas lease will be sold on the following terms and conditions, to-wit:

For a cash bonus of not less than Eighty dollars (\$80.00) per acre for acreage owned by said wards.

Said sale to be held in the county court room of Pontotoc county, Oklahoma, at the time above stated.

Dated this 27th day of April, 1921. J. J. LAYNE, Guardian.

be following numbers on the program to be given.

The entire program will be rendered on the Normal campus, beginning at 6:30 sharp. An urgent request is made to every citizen of Ada to come out and see this grand celebration. No admission will be charged.

The music will be furnished by the High school band. Burgess Steed will act as trumpeter for the occasion.

Turn to the want ad page.
